PROFESSIONAL SUMMARY

B.Tech student (Class of 2027) with hands-on experience in Generative AI through an internship and a self-built RAG chatbot project. Strong foundation in C, C++, Data Structures and Algorithms, with working knowledge of HTML/CSS. Quick learner, eager to apply problem-solving and AI/ML skills to real-world software engineering roles.

TECHNICAL SKILLS

Programming Languages: C, C++, Embedded C

Core CS: Data Structures & Algorithms (DSA)

AI/ML: Generative AI, Retrieval-Augmented Generation (RAG), LangChain

Web: HTML, CSS

INTERNSHIP EXPERIENCE

Generative AI Intern

- Worked on practical applications of Generative AI, gaining exposure to large language model (LLM) concepts and tools used in building AI-driven solutions.
- Applied learnings from the internship toward building an independent RAG-based chatbot project using LangChain.

PROJECTS

RAG Chatbot

[GitHub Link](#)

- Built a Retrieval-Augmented Generation (RAG) chatbot using LangChain, Python, and LLMs to answer user queries with context-aware responses.
- Implemented document embedding and vector-based retrieval to fetch relevant information from a knowledge base before response generation.
- Improved chatbot accuracy and reduced hallucinations by grounding LLM outputs with externally retrieved data.

EDUCATION

Haldia Institute Of Technology | CGPA: 8.11

2023 – 2027

Bachelor of Technology (B.Tech)

CERTIFICATIONS

- NPTEL - Operating Systems Fundamental (75%)
- NPTEL - Programming In Java (98%)
